RE: Diabetes Funding from Nueces County

The funds that were received from Nueces County for Diabetes Education were a sincere benefit to our school district. With this financial support, the district supported Diabetes awareness in many ways. Our total amount of \$3,000 was divided amongst the implementation of our district health fair and campus diabetes awareness/prevention materials. Our community health fair brought Diabetes awareness and to students, parents and community members through a public event at which local organizations provided diabetes screenings, management techniques/tools and promoted healthy lifestyles as prevention of this disease. Student materials allow staff to engage in meaningful conversations with students regarding Diabetes and making healthy choices for prevention.

Once again, we are requesting that funds be distributed to our district in the effort to continue to support Diabetes awareness for TMISD staff, students and community.

Sincerely,

Suzanne J. Nelson, Superintendent
