Re: Port Aransas Chamber of Commerce Outside Agency Funding

FY 11-12
Outside Agency
Report

Dear Commissioner Pusley:

In response to your letter of May 7, 2013, the Port Aransas Chamber of Commerce appreciates the \$1,000 grant for fiscal year 2011/2012 from the County for the pursuit of our economic development efforts. We are in the process of conducting the Visitor Survey under our contract with Texas AgriLife Extension Service of Texas A&M University/College Station, as was indicated in our letter of August 28, 2012 advising us of your bequeath. The funding you provided has been allocated toward this project which is on-going through September 30, 2013. Attached is a copy of the on-site survey that is being utilized, and there is also an opportunity for an on-line survey should the visitor prefer that method.

If you would be interested in receiving a copy of the entire contract with Texas A&M, please advise. We have utilized prior funding from the County as well for this in-depth survey and anxiously look forward to its completion, at which time we will be happy to share the report with you. I might add that the project is going quite well and we believe a great deal of important information that will be of significant interest is being gathered.

Thank you again for your generosity and support of our community. Please give me a call at 361-749-5919 if you need additional information or have any questions.

Tax ID: 1-74-18555060

Respectfully,

Ann B. Vaughan
