Re: DPP#0216-02p, Block 1, Lot 3B, BDNC-12-0096: Dune Walkover

Carl Badalich as owner of the Block 1, Lot 3B, BDNC-12-0096 has applied for a Nueces County Dune Protection Permit to construct a Dune Walkover.

2016 In addition to the written Permit Application and its exhibits, the Beach Management Advisory Committee (BMAC) asked questions from Mr. Badalich, owner, during the monthly meeting commencing at 4:05 PM on February 24, 2015 in the Padre Balli Conference Room, 15820 Park Road 22, Corpus Christi, Texas 78418. Application attachments such as plats, schematic layouts, and topographical representation through Aerial photographs and Google map, were reviewed and examined.

The Committee concurred and unanimously recommended that the application qualified for a Dune Protection Permit with the stipulation that the Dune Walkover be constructed with a minimum vertical clearance of 3 feet at the primary and maintenance dune crest, transition to a nine foot clearance between the dune structures and the seaward approach be constructed at a northerly angle to the waterline. The Committee recommended, the Dune Walkover must be constructed to meet the most current GLO Dune Walkover GLO standards (GLO Email attached) as shown under the following link:

After the recommendation was issued by the committee members, the meeting was adjourned.

Respectfully submitted:

Greg Smith, Chairman
